

Special Issue

System Efficiency and Resource Recovery in Circular Horticulture

Message from the Guest Editors

This Special Issue welcomes original research and review articles that provide insights into all topics related to sustainable and circular horticulture. The scope of submission includes all aspects of sustainability (economic, environmental, and social) in horticulture, as well as the efficiency of resources, input and outputs, in different climatic conditions and agrosystems. Work related to reducing, reusing, recycling and recovering materials in the horticultural sector is welcome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
