

Special Issue

Sustainable Utilization of Humic Substances and Organic Waste in Green Agriculture

Message from the Guest Editor

This Special Issue will focus on “Sustainable Utilization of Humic Substances and Organic Waste in Green Agriculture”. Original research articles, reviews, opinions, communications and letters are invited, introducing novel approaches to a range of hot topics, including but not limited to:

- Green production processes, properties and uses of HS and OW;
- HS interactions/complexation with compounds promoting sustainable agriculture;
- Impact of HS, HS-contained materials and organic waste on the environment (soil, plants and living organisms, domestic animals and cattle included);
- OW from industrial processes, e.g., molasses, cheese whey, slaughterhouse, leather;
- Physical, chemical, biological OW treatments and recycling, e.g., retention, adsorption, composting, decomposer microorganisms, supporting green agriculture;
- Management of the pollutants that accompany OW, e.g., chemicals, pharmaceuticals, drugs, dyes, pesticides, food additives.

Guest Editor

Dr. Maria Roulia

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
