

Special Issue

Agricultural Local Development, Social Anthropology, and Economic Activities

Message from the Guest Editors

Agricultural development spans over multiple interrelated domains, including rural population, resource markets, agricultural production, and environmental systems. The proper balancing of the needs of different stakeholders requires policy interventions that may be facilitated at different levels (international, national, and subnational policies). This Special Issue deals with the complex problematics of agricultural development, with a focus on local policies, sociological considerations, and economic analyses. The quantitative and qualitative approaches can be taken to address the most relevant challenges for contemporary agricultural systems, stemming from sustainability goals, supply chain disruptions, and resilience objectives. The topics to be addressed in this Special Issue include, but are not limited to, the following: Resource efficiency and productivity in agriculture; Agricultural finance and trade; Agricultural policies and measures; Implementation of cross-cutting objectives in agriculture; Sustainable agricultural development; Sustainable rural development; Local action towards agricultural development; Sociological analysis of rural development issues.

About the Journal

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Editor-in-Chief

Prof. Dr. Les Copeland
Sydney Institute of Agriculture, School of Life and Environmental
Sciences, The University of Sydney, Sydney, NSW 2006, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q1 (Agronomy) / CiteScore - Q1 (Plant Science)
