

# Special Issue

## Sustainable Use of Pesticides

### Message from the Guest Editors

This Special Issue aims to achieve sustainable use of pesticides by reducing the risks associated with pesticide use in agriculture and promoting the use of integrated pest management (IPM) and alternative green approaches and techniques. Research articles will cover topics related to pesticide use status, pesticide risk evaluation, new techniques of pesticide application, field pest resistance status, resistance mechanism, and pesticide resistance management strategies. For this Special Issue, we welcome all types of articles, including original research, opinions, and reviews.

## About the Journal

### Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.
