Papers from AgEng2021

Message from the Guest Editors

AgEng conferences organized each two years under the aegis of EurAgEng society, are an opportunity to join professionals to exchange knowledge and ideas and to present innovations and discuss the state of the art and future perspectives for agricultural engineering. The AgEng2021 will be held in the University of Évora, Portugal, between 4 and 8 of July 2021 with the focus on New Challenges for Agricultural Engineering towards a Digital World. AgEng2021 topics will deal with the typical topics of agricultural engineering such as Precision agriculture, Automation, robotics and sensor technology, Soil, land and water engineering, Farming systems, Farm buildings, mechanization and Post-harvest technologies as new multidisciplinary topics as Smart farming, Artificial Intelligence, big data processing and management, Circular Economy, Energy, Education and Rural development. Detailed information is available at <https://ageng2020.com/>.

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.
