

## Special Issue

# Trends in Nano- and Biotechnology to Shape Sustainable Agriculture: Nano-Farming Insight for Healthy Soil and Innocuous Food

### Message from the Guest Editor

More than eight billion people worldwide require healthy and affordable food cultivated under sustainable management and through the friendly harnessing of natural resources such as biodiversity, soil, and water. During the last two decades, nanotechnology and biotechnology have developed cutting-edge research with remarkable advances usable in farmlands, contributing to human well-being through better, cheaper, and healthier processes and caring for the ecosystems and environments. Therefore, this Special Issue will collect new advances, processes, methodologies, technologies, and innovations with actual or potential applications to preserve and improve healthy soil and boost innocuous food production through nano- and biotechnology to shape sustainable agriculture. We welcome contributions (reviews and scientific manuscripts) that provide the community with the most recent advancements in this sense. Long-term in situ field trials are especially appreciated.

### Guest Editor

Dr. Fabián Fernández-Luqueño

Sustainability of Natural Resources and Energy Program, Cinvestav-Saltillo, Ramos Arizpe C.P. 25900, Coahuila de Zaragoza, Mexico

### Deadline for manuscript submissions

closed (10 July 2023)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
