

Special Issue

Feature Papers on Medicinal and Aromatic Plants

Message from the Guest Editors

This Special Issue accepts contributions covering all research aspects related to MAPs, from the discovery and valorization of plants' potentialities to their open field cultivation, through the overlapping sectors of botany, agronomy, agroforestry, plant physiology, chemistry, and food technology. Key topics in this Special Issue include but are not limited to the following:

- Mapping and characterization of wild populations of MAPs;
- Breeding and selection of MAPs;
- Propagation and in vitro techniques;
- Ethnobotany and ethnopharmacology;
- Phytotherapy, phytochemistry, and phytopharmacology;
- Essential oils and secondary metabolites;
- Organic and conventional cropping management of MAPs;
- MAPs in agroforestry;
- Novel uses of MAPs: bioherbicides and biopesticides;
- MAPs as food additives.

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
