

Special Issue

Management of Plant Functional Diversity in Agroecosystems

Message from the Guest Editors

Submissions on the following topics are invited: (1) Agronomic practices related to plant functional diversity management (e.g., intercropping, relay cropping, cover crops, agroforestry, permanent green infrastructures), with special emphasis on traits providing agroecosystem services; (2) advanced approaches and techniques for scaling up from cultivated plant communities to the landscape level; and (3) decision support tools and models based on functional traits or biodiversity indicators to quantify ecosystem services.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
