

## Special Issue

# Non-Food Oilseed Crops: Agronomy, Production, Physiology, Phenomics and Genetics

### Message from the Guest Editors

Oilseed crops are a valuable source of vegetable oils, which can be converted to biofuels and other biobased products through various chemical transformations. Non-food oilseed crops and oilseed crops with non-food applications include camelina, crambe, pennycress, carinata, Indian mustard, castor bean, safflower, cuphea, Andean lupine, hemp, oilseed rape, flax, cardoon, and others. This Special Issue will focus on “Non-Food Oilseed Crops: Agronomy, Production, Physiology, Phenomics, and Genetics”. We welcome novel research and reviews covering a range of topics in oilseed crops, including crop genetics and improvement, production management, biodiversity, crop physiology, phytoremediation, integration of industrial oilseed crops into food cropping systems, growing oilseed crops on marginal land, modeling, lifecycle assessment, economics and marketing, and policy.

### Guest Editors

Dr. Federica Zanetti

Department of Agriculture and Food Sciences (DISTAL), Università di Bologna – Alma Mater Studiorum, 40127 Bologna, Italy

Dr. Christina Eynck

Saskatoon Research and Development Centre, Agriculture and Agri-Food Canada, Saskatoon, SK S7N 0X2, Canada

### Deadline for manuscript submissions

closed (15 November 2022)

## About the Journal

### Message from the Editor-in-Chief

*Agronomy* draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

*Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

---

### Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,  
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
