

Special Issue

Plant Production and Microorganism Potential in Modern Agro-Ecosystems

Message from the Guest Editors

In this Special Issue, we encourage you to submit your reports on the following topics:

- Innovative plant production practices and techniques;
- Biodiversity and potential biotechnological applications of microorganisms in sustainable agriculture;
- Eco-farming as a strategy for food production and protection of environmental biodiversity;
- The influence of fertilization on the efficiency of water use by crops in the light of climate change;
- Decision support tools and modeling.

Guest Editors

Dr. Agnieszka Wolna-Maruwka

Prof. Dr. Jean Diatta

Dr. Justyna Starzyk

About the Journal

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet.

Agronomy is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Editor-in-Chief

Prof. Dr. Leslie A. Weston

Gulbali Centre for Agriculture, Water and Environment Research,
Charles Sturt University, Wagga Wagga, NSW 2678, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Agronomy and Crop Science)
