# Message from the Editor-in-Chief

*Anesthesia Research* (ISSN 2813-5806) is the new open-access journal published by MDPI. It is intended to include scientific contributions in many fields directly connected to anesthesia and related clinical environments.

It is the intention of *Anesthesia Research* to rapidly reach and maintain a good Impact Factor, and to do this, the quality of the contributions is of paramount importance. The quality of work of the Editors, the Editorial Staff, the Publisher, and of course, the Authors, is the only way to hit the target.

## **Aims**

*Anesthesia Research* (ISSN 2813-5806) is an international, peer-reviewed, open access journal that focuses on the research and practice of anesthesia. The journal covers all aspects of research on anesthesia physiology, medical physics, and pharmacology, as well as invasive and non-invasive organ support techniques used in the field. Full experimental details must be provided so that the results can be independently reproduced. Electronic files and software showing the full details of the calculation or experimental procedure, if unable to be published within the text, should be deposited as supplementary electronic material suitable for reuse. There is no maximum word limit on submissions.

---

## Scope

- Anesthesia in critical emergency medicine;
- Anaesthetic medications;
- Nervous system for nerve blocks;
- Assessment of the risk of anesthesia;
- Clinical and basic science research;
- Applied, translational and theory-establishing or mechanistic research;
- Pharmacology ;
- Monitoring;
- Hemodynamics;
- Anesthesia in the context of acute, critical illness including pain;
- Blood and fluid management;
- Patient blood management;
- Patient outcomes;
- Costs (e.g., hospital costs; pharmaceutical costs; societal costs);
- Public health;
- Informatics;
- Pain management including neurologic causes of pain;
- Personnel management;
- Critical care.

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Rapid Publication

A first decisions in 16 days; acceptance to publication in 5.8 days (median values for MDPI journals in the first half of 2024)
