

## Special Issue

# Reproductive Management Strategies for Dairy and Beef Cows

### Message from the Guest Editor

This Special Issue aims to highlight and provide insights into current research addressing the development of novel reproductive management strategies that could enhance the reproductive efficiency of beef and dairy cows. Research areas may include (but are not limited to) the following:

- The development of novel estrus synchronization programs;
- The development of novel vaccine programs that result in improved reproductive efficiency;
- Nutritional strategies that result in improved reproductive efficiency;
- Management strategies that improve reproductive efficiency.

We are pleased to invite you to submit your work related to the area of reproductive management strategies for beef and dairy cows.

---
