

## Special Issue

# Veterinary Sciences and Sea Turtles

### Message from the Guest Editor

The International Union for the Conservation of Nature (IUCN) emphasizes the importance of the investigation of sea turtles. In recent years, increased efforts from veterinary researchers have been devoted to the conservation of sea turtles, sometimes from a multidisciplinary approach, contributing to significant advances in their medical management. In addition, many veterinary surgeons are currently involved in sea turtle conservation in wildlife rehabilitation hospitals around the world. In this Special Issue of *Animals* (a Q1 Veterinary Sciences journal, 2019 Impact Factor 2.323), we aim to gather high-quality papers addressing different areas within veterinary sciences that contribute to the conservation of sea turtles. Researchers working in anatomy, physiology, surgery, internal medicine, clinical pathology, pathology, parasitology, microbiology and infectious diseases, pharmacology, and toxicology (exclusively research on the effects of environmental pollutants on sea turtles) are welcome to contribute in-depth reviews, original full articles, and unique case reports.

## About the Journal

### Message from the Editor-in-Chief

*Animals* is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
