

# Special Issue

## Experimental and Computational Fluid Dynamics

### Message from the Guest Editor

This [Special Issue](#) aims to provide opportunities for research scholars, scientists and engineers to share and discuss both their original research works and reviews on relevant topics. Studies on the strong connection between underlying fluid dynamic mechanisms and their applications in engineering fields are highly welcome. Within this broad spectrum, topics of particular interest include:

- fluid dynamics
- flow diagnostic tools
- computational fluid dynamics
- multiscale fluid dynamics
- fluid dynamics in engineering

---

### Guest Editor

Dr. Yaqing Jin

Department of Mechanical Engineering, The University of Texas at Dallas, Richardson, TX 75080, USA

---

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

---

### Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo  
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,  
20133 Milano, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
