

Special Issue

Applied Artificial Intelligence (AI)

Message from the Guest Editors

Modern life is immersed in a highly interconnected technological world. Many of the applications designed for this digital ecosystem make use of sophisticated artificial intelligence techniques to solve all kinds of problems, from optimized searching engines to advanced facial recognition features on the web, from shape recognition algorithms for image processing to pattern recognition methods for social networks and economic studies, and from complex behavioral engines for synthetic characters in computer movies and video games to advanced routines for robotics, unmanned autonomous vehicles, natural language processing, business intelligence, etc. Artificial intelligence is poised to change the world in the coming decades. Keywords

- Artificial intelligence
- Evolutionary computation
- Nature-inspired metaheuristic techniques
- Genetic algorithms
- Swarm intelligence
- Hybrid methods
- Swarm robotics
- Cognitive sciences
- Neural processing
- AI-based optimization
- AI-based medical imaging
- AI-based image processing
- AI-based shape/pattern recognition

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
