

Special Issue

State of the Art in Comorbidities and Complications Associated with Sleep-Related Breathing Disorders II

Message from the Guest Editors

I invite you to contribute to a Special Issue of the journal *Applied Sciences* entitled “State of the Art in Comorbidities and Complications Associated with Sleep-Related Breathing Disorders II”, which aims to present the most up-to-date knowledge in the diagnosis and interdisciplinary management of sleep-related breathing disorders in both children and adults. The term “sleep-related breathing disorders” (SRBDs) encompasses a range of pathologic conditions characterized by abnormal respiration during sleep that can affect both children and adults. The expanding knowledge on this topic has revealed that impaired sleeping and breathing have profound effects on many systemic functions; therefore, a modern approach requires the collaboration of different professionals, such as otorhinolaryngologists, pneumologists, neurologists, cardiologists, psychologists, dentists, and many others. I therefore invite you to submit your research on these topics, in the form of original research papers, reviews, and perspective articles.

Guest Editors

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
