

Special Issue

Graphene Growth and Its Nanostructuring

Message from the Guest Editor

This Special Issue will cover a selection of original research and review articles related to graphene and nanostructuring, focusing primarily on the following topics:

- Emerging of graphene and graphene oxide processing;
- Graphene and biomedical engineering;
- Graphene and smart polymers;
- Graphene and biosensors;
- Graphene and supercapacitors;
- Environmental applications of graphene-based nanomaterials.

We look forward to receiving your contribution to this Special Issue, which we have no doubt will be as excellent as your previous work in the field.

Guest Editor

Dr. Hamid Hamed

Fiber and Polymer science, North Carolina State University, Raleigh, NC, USA

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
