

Special Issue

Research on Cloud Computing and Big Data

Message from the Guest Editors

In recent years, cloud computing and big data have emerged as transformative technologies that are reshaping industries and redefining the landscape of digital innovation. This Special Issue on "Research on Cloud Computing and Big Data" seeks to explore the latest advancements, challenges, and future directions in these fields. We invite submissions that cover a broad range of topics, including, but not limited to, the following:

- Cloud architecture and infrastructure for big data;
- Advanced data analytics and machine learning in the cloud;
- Security, privacy, and compliance in cloud-based data systems;
- Optimization of cloud resources for big data processing;
- Applications of cloud computing and big data in various industries (e.g., healthcare, finance, education, smart cities);
- The role of artificial intelligence in enhancing cloud and big data solutions;
- Case studies and real-world implementations of cloud and big data technologies.

We look forward to receiving your valuable contributions to this Special Issue, and to advancing the discourse on the critical intersection of cloud computing and big data.

Guest Editors

Dr. Yu-Wei Chan

Bachelor Degree Program of Artificial Intelligence, National Taichung University of Science and Technology, Taichung 40301, Taiwan

Prof. Dr. Chao-Tung Yang

Department of Computer Science, Tunghai University, Taichung City 407224, Taiwan

Deadline for manuscript submissions

20 April 2025

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
