

Special Issue

Advanced Technologies in Environment Protection and Environmental Risk Assessment

Message from the Guest Editor

Environmental protection, thanks climatic change, obtained new dimension. There is need find opportunities for environmental risk assessment and use Advanced Technologies in Environment Protection. This issues offers interesting, actual and very important topic. This Special Issue, “Advanced Technologies in Environment Protection and Environmental Risk Assessment”, topics include, but are not limited to:

- Evaluation of state of the natural and working environment which will be exposed to physical, chemical and biological factors;
- The impact of harmful factors on the environment in industrial and urbanized countries;
- Watching the effects of light pollution, electromagnetic radiation, the impact of industrial noise on environment, impact of vibration and microclimate conditions on human in the work environment;
- Industry accidents;
- Evaluation of the use of renewable resources, secondary use of materials and raw materials;
- Dispersion models and models for predicting changes of future climate change.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
