Selected Papers from the Conference Reuso 2019

Message from the Guest Editors

The VII International Conference on the documentation, conservation, and recovery of architectural heritage (“Reuso”) continues the successful series of conferences started in 2013. This edition, organized by the University of Basilicata, will be held in Matera (Italy) on 23–26 October 2019, the city awarded as European Capital of Culture 2019. The theme of the conference is a multidisciplinary approach focused on cultural heritage issues, such as architectural surveys, traditional and innovative methods for preservation, construction techniques and materials, approaches and methods of diagnosis and monitoring, maintenance and durability of the interventions, and numerical investigations.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
