

Special Issue

Novel Approaches and Technologies for Software Engineering and IT Management

Message from the Guest Editors

Information and Communication Technologies have become key components of any enterprise organization, offering remarkable improvement in the productivity and efficiency of production operations. For this reason, novel approaches and technologies for software engineering and IT service management are emerging, in order to improve certain products and services. Therefore, organizations have recognized that software engineering and its applications through IT service management allow for increased productivity, lower costs, and improved end-user satisfaction by providing optimized solutions, since this is a field that is constantly evolving due to the new challenges. We welcome high-quality submissions to this Special Issue, and are seeking research articles that include original and relevant contributions from academics and the industry, in order to cover diverse topics and report state-of-the-art advances, case studies, approaches, techniques, and industry experience.

Guest Editors

Dr. José Antonio Calvo-Manzano

Dr. Jezreel Mejía-Miranda

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
