

Special Issue

Polyphenol and Aroma Compounds in Viticulture and Enology

Message from the Guest Editors

Dear Colleagues We are inviting submissions to the Special Issue "Polyphenol and Aroma Compounds in Viticulture and Enology". The main aim of this Research Topic is to gather information's and increase our knowledge: about the origin of those compounds and their precursors in berries and yeasts, mechanisms of grapevine adaptation facing various abiotic and biotic stressors, and recent advances in berry secondary metabolites in response to the implementation of various viticulture techniques, and winemaking processes important for future adaptation of this sector. An additional aim is to present phenolic and aromatic profile of locally important indigenous varieties threatened with extinction. We invite you to submit your latest research and review articles in this Special Issue that help to highlight the most recent advances on polyphenols and aromatics from grape and wine products.

Guest Editors

Dr. Željko Andabaka

Department of Viticulture and Enology, Faculty of Agriculture, University of Zagreb, 10000 Zagreb, Croatia

Dr. Ana Mucalo

Institute for Adriatic Crops and Karst Reclamation, Put Duilova 11, 21000 Split, Croatia

Deadline for manuscript submissions

closed (20 April 2022)

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32,
20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
