

Special Issue

Green Energy and Applications

Message from the Guest Editors

The Special Issue provides a practical and comprehensive forum for exchanging novel research ideas or empirical practices which bridge the latest Renewable Energy, Energy Research, Sustainable energy. The SI encompasses theoretical, analytical, empirical research, comprehensive reviews of relevant research, conceptual frameworks and case studies of effective applications in this area. We invite colleagues to contribute to this special issue. Potential topics include, but are not limited to:

- Green Energy and Applications
- Green energy
- Sustainable energy
- Energy Technology
- Energy engineering
- Energy development
- Energy economy
- Energy-Saving
- Energy Management
- Energy Policy
- Carbon Reduction
- Recycle

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
