Selected Papers from IMETI 2018

Message from the Guest Editors

The 7th International Conference on of Engineering and Technology Innovation (IMETI 2018) will be held in Taoyuan, Taiwan, 2–6 November, 2018. It covers a wide range of fields in science and engineering innovation and aims to bring together engineering technology expertise. The professional from the industry, academia and government to discourse on research and development, professional practice, business and management in the science and engineering fields are welcome to the IMETI2018. IMETI2018 consists of the three sub-conferences and more than 30 regular and special sessions (<http://imeti.org/IMETI2018/>). The main goal of this Special Issue, “Selected Papers from IMETI 2018”, is to present the latest advances in research and novel applications of Engineering and Technology, especially on Materials Science, Industry 4.0 and Automation Engineering, Intelligent Computing and System, Computer and Information Engineering, and Green Technology and New Energy.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
