Special Issue

10th Anniversary of *Axioms: Logic*

Message from the Guest Editor

This year, *Axioms* will celebrate ten years since its first publication in 2012. To mark this significant milestone and celebrate the journal's achievements throughout the years, we are organizing a Special Issue entitled "10th Anniversary of Axioms: Logic" in the section "Logic" of *Axioms*. This Special Issue will consider high-quality papers presenting original research in logic, mathematical logic and their applications, including but not limited to:

- Algebraic logic;
- Fuzzy logic;
- Descriptive set theory;
- Decision making;
- Computability and recursion theory;
- Algorithmic and combinatorial optimization.

Guest Editor

Prof. Dr. Oscar Castillo

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince
Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access
— free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:
indexed within SCIE (Web of Science), dblp, and other databases.

Journal Rank:
JCR - Q1 (Mathematics, Applied)
