Thirty Years of Biochemistry Course at the University of Algarve (1993–2023)

Message from the Guest Editors

The degree in Biochemistry at the University of Algarve (UAlg) began in 1993 and was the fourth to be created in Portugal. Its main mentor was Professor Winchil Vaz and, in the first two decades of existence, it was promoted and developed by . In recent years, this degree has consolidated itself on the regional and national scene under the direction of Professor Deborah Power and the support of Professor Jorge Martins. In the academic year 1997/98, the first graduates in Biochemistry graduated from UAlg and, by 2022/23, this degree has already launched 327 professionals into the job market. Some of these graduates are professors in universities, in Portugal and abroad, as well as researchers or senior technicians and also some who work in companies inside and outside the country. More than 50% followed their higher education, obtaining a master's and/or doctor's degree. This Special Issue aims to bring together several generations of UAlg biochemists, sharing their scientific experiences and scientific contributions. About the Journal

Message from the Editor-in-Chief

BioChem is an international and interdisciplinary open access journal encompassing the fields of molecular biology, cell biology, structural biology, nucleic acid biology, chemical biology, synthetic biology, disease biology, biophysics, and theoretical biochemistry. It publishes reviews, research articles, communications, and letters. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible.

Editor-in-Chief

Prof. Dr. Yehia Mechref
Department of Chemistry and Biochemistry, Texas Tech University,
Lubbock, TX 79409, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.1 days after submission; acceptance to publication is undertaken in 5.1 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names published annually in the journal.
