

## Special Issue

# Artificial Intelligence-Based Diagnostics and Biomedical Analytics

### Message from the Guest Editors

The field of Artificial Intelligence (AI) has made significant strides in recent years, leading to advancements in various fields including biomedical research and diagnostics. The use of AI-based techniques in biomedical analytics has opened up new avenues for the development of disease diagnosis, treatment, and drug discovery. This Special Issue aims to highlight the latest research and breakthroughs in AI-based diagnostics and biomedical analytics. The topics include but not limited to, the following:

- AI-based methods for medical image analysis and interpretation;
- AI-based methods for the prediction and diagnosis of diseases;
- AI-based methods for early disease detection and prevention;
- AI-based methods for disease prognosis and survival prediction;
- AI-based methods for precision medicine;
- AI-based methods for genomics;
- AI-based drug discovery and personalized medicine;
- AI-based medical decision support systems;
- Biomedical data mining and knowledge discovery;
- Ethical considerations in AI-based diagnostics and biomedical analytics.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2024).
