

Special Issue

Advanced Bioremediation Technologies and Processes

Message from the Guest Editors

Bioremediation is one of the most appealing approaches for the sustainable restoration of environmental matrices contaminated by organic or inorganic compounds. This Special Issue will focus on original research papers and comprehensive reviews, dealing with cutting-edge bioprocesses and technologies for sustainable, effective, and multidisciplinary restoration of contaminated sites. Topics of interest include, but are not limited to, the following: Development of innovative bioremediation technologies for the restoration of contaminated environmental matrices; Novel bioprocesses for remediation; Advances in the characterization and monitoring of contaminated sites; Biomolecular tools for bioremediation; Circular economy in bioremediation technologies; Bio-based materials for bioremediation applications. Our efforts will be focused on collecting original papers and reviews covering the latest advances and novel perspectives in the biotechnologies and processes for the remediation of contaminated sites.

Guest Editors

Dr. Bruna Matturro

Water Research Institute, IRSA-CNR, 00015 Monterotondo, Italy

Dr. Laura Lorini

Department of Chemistry, Sapienza University of Rome, Piazzale Aldo Moro 5, 00185 Rome, Italy

Deadline for manuscript submissions

closed (31 July 2024)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
