Dental Pulp Stem Cells and Their Applications in Tissue Engineering, Regeneration and Clinical Therapy

Message from the Guest Editors

The human dental pulp has revealed itself as a unique reservoir of adult stem cells with an outstanding quality and applicability potential for tissue engineering and cell therapy in a variety of clinical contexts, including regenerative dentistry and reaching far beyond. Dental pulp stem cells (DPSCs) have the capacity to differentiate to many different mesenchymal and non-mesenchymal cell lineages, including neural and vascular cells. This Special Issue welcomes cutting-edge original research papers and comprehensive reviews dealing with DPSC biology and their current and potential applications on clinical therapy and tissue engineering and regeneration, with an emphasis on the expansion of the limits of knowledge of the DPSC field.

Guest Editors

Prof. Dr. Gaskon Ibarretxe Bilbao

Department of Cell Biology and Histology, University of the Basque Country (UPV/EHU), 480940 Leioa, Spain

Dr. José Ramón Pineda

Laboratory of Neural Stem Cells and Neurogenesis, Achucarro Basque Center for Neuroscience, 48940 Leioa, Spain

Deadline for manuscript submissions

closed (30 June 2021)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2024).
