

## Special Issue

# Extracellular Vesicles in Inflammation and Inflammatory Diseases

### Message from the Guest Editors

Extracellular vesicles (EVs) have a pivotal role in inflammation, and EVs including exosomes, apoptotic bodies, and microvesicles show significant alteration in people who are on drugs of abuse (e.g., cocaine, alcohol, opioids) and in those with inflammatory diseases (e.g., gastrointestinal inflammation, liver diseases, autoimmune, neuroinflammation). For this Special Issue, we encourage the submission of manuscripts on any aspect of extracellular vesicles including but not limited to the role of extracellular vesicles in disease pathogenesis; biogenesis; intercellular or interorgan communication; biomarkers and therapeutics; Proteomics, lipidomics and metabolomics of EVs; drugs of abuse; inflammatory diseases; etc. We accept reviews, conference proceedings, and short- and full-size research papers which cover the subjects as mentioned above.

## About the Journal

### Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences )

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
