

Special Issue

Host-Parasite Interactions: Trends in Molecular Ecology

Message from the Guest Editors

Dear colleagues, Parasitism is one of the most successful modes of life, given the extent of current and past diversity of parasitic species. Interactions between hosts and their parasites play a central role in their evolution and greatly influences their biology. This special issue will include reviews and research articles on the topic "interactions between hosts and parasites". While the reviews will focus on the future of Parasitology, the research articles will address pertinent questions about the co-evolution between these organisms and discuss findings through the lens of evolutionary biology. Please send me an abstract prior to submission to make sure that your work falls within the scope of this special issue. Sincerely,

Guest Editors

About the Journal

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in Molecular and Integrative Biosciences, Faculty of Biological and Environmental Sciences, University of Helsinki, P.O. Box 56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology Institute, University of Valencia and CSIC, 46980 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
