

## Special Issue

# State-of-the-Art Drug Cardio-Respiratory Discovery and Development in Europe

### Message from the Guest Editor

This issue will focus on articles which describe all phases of drug discovery, from molecular work and early in vitro or animal studies, to clinical trials with diseases of the cardiovascular and/or respiratory system. This could include airways disease, pulmonary fibrosis, respiratory infection, ischaemic heart disease, pulmonary hypertension, cardiac failure, atrial fibrillation or other cardiorespiratory problems. Review articles about the current situation in a specific disease or disease area, which describe the landscape for treatment in the future, based on current themes in drug development, would also be of interest. This Special Issue aims at collecting original research or review articles on Drug Cardio-respiratory Discovery and Development in Europe.

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
