

Special Issue

Immunology: You Can't Make a Silk Purse Out of a Sow's Ear

Message from the Guest Editor

This thematic Special Issue will focus on the immune system as an active participant in health and diseases. Immunology is one of the most complex fields of life science and a highly competitive research field to publish new and rare ideas and findings, in particular for young scientists. Millions of scientists utilize their expertise in medicine and biology to focus on autoimmune diseases, cancer, immunodeficiency's, age-associated impairments (immune-aging) and other immune disorders to help patients and cure diseases. Aim of this special issue is to provide an overview and an update on trends in clinical translation of basic research in immunology with special focus on aging. In this Special Issue, entitled "Immunology: You can't make a silk purse out of a sow's ear", we invite the submission of original research and comprehensive review on this field particularly which lie outside the current scientific understanding with high scientific and transformative potential.

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
