Neurogenesis and Neurological Disorders

Message from the Guest Editor

Neurogenesis, the process involve in generation of new neurons occurs during embryonic development has been challenged and growing evidence support occurrence of neurogenesis in adult brain.

Neurogenesis play crucial role in brain functions. The concept that neurogenesis might play important role in neurological and neuropsychological diseases and studies supporting the generation of new neurons throughout the life specifically in brain region hippocampus involve in cognitive and memory function are of specific interest. Importantly, neurogenesis explores new way to look psychological and neurological disorders as well as in the process of addiction.

Biomedicines seeking manuscripts for special issue on 'Neurogenesis and neurological disorders' to fill a literature gap on this most advance and interesting topic. As a of this special issue, I invite you to submit a manuscript.

About the Journal

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Editor-in-Chief

Prof. Dr. Felipe Fregni

1. Neuromodulation Center and Center for Clinical Research Learning, Spaulding Rehabilitation Hospital and Massachusetts General Hospital, Harvard Medical School, Boston, MA 02114, USA
2. Department of Epidemiology, Harvard T.H. Chan School of Public Health, Boston, MA 02115, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
