

## Special Issue

# Crosstalk between Depression, Anxiety, Dementia, and Chronic Pain: Comorbidity in Behavioral Neurology and Neuropsychiatry 2.0

### Message from the Guest Editor

This is the second volume of the Special Issue "Crosstalk between Depression, Anxiety, and Dementia: Comorbidity in Behavioral Neurology and Neuropsychiatry". This Special Issue highlights the most recent research on molecular and cellular mechanisms of depression, anxiety, dementia, and chronic pain, with attention to the comorbidity in a range of diseases. We cordially invite authors to contribute original research articles focusing on, but not limited to, the following:

- Etiology, pathogenesis, and progression mechanism;
- Early diagnosis including biomarkers, bio-imaging, biosensors;
- Prophylactic, disease-modifying, and therapeutic strategies, novel targets;
- Novel drug discovery and development, naturally driven biomedicines, natural bioactive molecules, vaccines;
- Antidepressants, anxiolytics, cognitive enhancers, analgesics;
- Nanobiotechnology, nanosimilars, nanobiosimilars;
- Preclinical in vitro models, animal models;
- Bench-to-bedside translational research;
- Bedside-to-bench translational research.

Comprehensive review articles are also welcome.

---

### Guest Editor

Dr. Masaru Tanaka

Neuroscience Research Group, Hungarian Research Network, Danube Neuroscience Research Laboratory, University of Szeged (HUN-REN-SZTE), Szeged, Hungary

## About the Journal

### Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.3 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2024).
