

Special Issue

Design and Fabrication of Soft Materials

Message from the Guest Editors

Emerging research interests that combine information and expertise from materials science, bioengineering, chemistry, and biomedical sciences have resulted in the rapid expansion of the interdisciplinary field of soft materials. Particularly, smart soft materials, soft robotics, and innovative designing and microfabrication processes may present new opportunities and solutions for tissue engineering, biosensing, and biomaterials. The objective of this Special Issue is to gather the latest achievements from the field of soft materials, on all aspects related to the recent advances in designing, manufacturing, and applications. We kindly invite you to submit your research related to the subject of this issue.

Guest Editors

Dr. Catarina Custódio

Dr. Clara R. Correia

Dr. Ana Sofia Silva

Deadline for manuscript submissions

closed (30 October 2020)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Stanislav N. Gorb

Department of Functional Morphology and Biomechanics, Zoological
Institute, Kiel University, 24118 Kiel, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q2
(Biomedical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 20.3 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2024).
