

## Special Issue

# Properties and Functions of Endometrial Stromal Cells

### Message from the Guest Editors

The endometrium is the reproductive tissue lining the uterus and undergoes extensive cyclic growth, regeneration, differentiation, and shedding throughout the menstrual cycle in response to steroid hormones. Endometrium abnormalities may be associated with repeated embryonic implantation failure, recurrent spontaneous abortions, and other physiological features contributing to female infertility. We hope that this Special Issue, titled "Properties and Functions of Endometrial Stromal Cells", will serve as a stepping stone to propose solutions for the abnormalities resulting from endometrial dysfunction in humans. This Special Issue welcomes your contributions in the form of original articles, reviews, or perspective articles on any aspect of recent advances in reproduction.

### Guest Editors

Dr. Toshihiro Sakurai

School of Pharmaceutical Science, Ohu University, Fukushima 963-8611, Japan

Dr. Mikihiro Yoshie

Department of Endocrine Pharmacology, Tokyo University of Pharmacy and Life Sciences, 1432-1 Horinouchi, Hachioji, Tokyo 192-0392, Japan

### Deadline for manuscript submissions

31 March 2025

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
