

Special Issue

Recent Advances in Antimicrobial Agents

Message from the Guest Editors

In the current healthcare setting, the emergence of antimicrobial-resistant pathogens continues to plague clinicians' ability to effectively treat microbial infections. Owing to the limited availability of diverse antimicrobial compounds that target only a limited subset of microbial mechanisms, treatment options remain selective. In this Special Issue, we aim to gather articles that utilize diverse chemical compounds and/or aim to target unique microbial mechanisms in order to enhance the understanding of the potential for novel antimicrobial agents. The compilation of articles in this Special Issue will bring together a varied collection of potential new avenues for the development of treatments for microbial pathogens in the clinical setting.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
