Human Gut Microbiome and Diet in Health and Diseases

Message from the Guest Editor

Prudent dietary practices and quality are important lifestyle factors concordant with human health. The intestines present the largest interface between the internal and external environment. Subsequently, the gastrointestinal tract harbors the largest biomass and concentration of bacteria. Additionally, resident in the intestines is an extensive mucosal immune and host immuno-modulation network, as well as a nutrient metabolism site that maintains the integrity of the gut architecture and microbiome, facilitating control of pathobiont influences. The inter-relationships between dietary practices, the gut microbiome and maintaining local mucosal immunity activities in equilibrium are critical signals for health maintenance and longevity.

About the Journal

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
