

Special Issue

Micro-nano Optic-Based Biosensing Technology and Strategy

Message from the Guest Editor

A micro/nano optical *biosensor* integrates a biorecognition element with an micro/nano transducer, which analyses the change in the properties of light that result from the interaction of the biorecognition element with the analyte. The distinct advantages offered by micro/nano optics *biosensors*, such as rapid detection, real-time operation, efficacy, label-free detection, and robustness, make them superior to many other conventional *biosensing* techniques, and various micro/nano technologies have offered new opportunities to further improve the sensitivity, selectivity, response time and biocompatibility of *biosensors* in light of their physical, chemical, electrical and electrochemical properties. In conclusion, this Special Issue aims to highlight the most recent and promising micro/nano technologies utilized in the development of *biosensors* for biomedical applications.

About the Journal

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della
Laustruccia 3, 50019 Sesto Fiorentino, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Chemistry, Analytical) / CiteScore - Q1
(Engineering (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
