

## Special Issue

# Applications of Functional Near-Infrared Spectroscopy (fNIRS) in Cognitive Neuroscience, Social Neuroscience, Neuromanagement, and Neuroengineering

### Message from the Guest Editors

Over the last three decades, functional near-infrared spectroscopy (fNIRS) has greatly promoted our understanding of human brain, especially in special samples and in special contexts. Up to ten years ago, fNIRS was normally used to examine basic cognitive functions; while in the last decade, fNIRS has attracted increasing attention in the fields of social interaction, education, child development, ergonomics, rehabilitation, and neural engineering. In the next decade, fNIRS will continue to play a significant role in interdisciplinary research connecting cognitive neuroscience and other engineering, social, medical, and even design sciences. In this Special Issue, therefore, we invite submissions addressing (but not limited to) the following topics using fNIRS: Social neuroscience, Neuromanagement, Neuromarketing, Educational neuroscience, Developmental neuroscience, Neuroaesthetics, Neuroergonomics, Neurorehabilitation, Neuroengineering, Brain-computer interface.

### Guest Editors

Prof. Dr. Chaozhe Zhu

State Key Laboratory of Cognitive Neuroscience and Learning, Beijing Normal University, Beijing 100875, China

Dr. Tao Liu

1. School of Management, Shanghai University, Shanghai 200444, China

2. School of Management, Zhejiang University, Hangzhou 310058, China

### Deadline for manuscript submissions

closed (30 September 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

---

### Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA  
15260, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
