Advances in Neuroeconomics

Message from the Guest Editors

Neuroeconomics is a fairly new discipline, and one of its challenges is understanding financial decision-making. Although our lives are often determined by the financial decisions we make, we still do not fully understand what causes these choices. Neuroeconomics has managed to go one step further by including neuroscience in the study of this decision-making process. In this emerging new field, most research has focused on certain brain areas based on what neuroscience literature has discovered so far. However, many related areas require further research. Thus, original articles or critical reviews submitted to this Special Issue should cover topics from a wide range of views and fields, such as neuroscience, neuroimaging, cognitive neuroscience, psychology, behavioral neuroscience, economics, and statistics. All original research articles and reviews investigating these topics will be welcomed. This Special Issue seeks original contributions demonstrating the significant advancements, innovations, relevance, and potential growth in the forthcoming years of this field of neuroscience.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
