Selected Papers from the 1st International Electronic Conference on Brain Sciences

Message from the Guest Editor

Dear colleagues, You are cordially invited to participate in the 1st International Electronic Conference on Brain Sciences. This event aims to bring together researchers working in the field of neuroscience to present and discuss their recent contributions, without the need for travel. A webinar is also organized during this e-conference. The field of neuroscience is one of the last frontiers in biomedical studies, as many of the details that control brain function are still not well understood. This makes the study of the nervous system very exciting and fast-moving. This conference will address a variety of research topics, which reflect some of the current research areas of focus.
