

Special Issue

Advances in Neurogenetics of Social Behavior

Message from the Guest Editors

Recent advances in big data approaches to neurogenetics, neuroimaging technology, and behavioral modeling have recontextualized our understanding of sociosexual behavior in both human and animal models. This Special Issue will focus on contemporary neuroscience research uncovering the neural representations of social behavior across species and model systems from emerging leaders in the behavioral neurobiology field. The issue will highlight research that holds great promise for translation from basic neuroscientific experiments performed in the lab and in the wild which aim to help to better understand social communication and associated neurodivergent conditions, such as autism spectrum disorders.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
