

Special Issue

Editorial Board Members' Collection Series: Construction Management, and Computers & Digitization

Message from the Guest Editors

We are pleased to announce this Special Issue collection titled “Editorial Board Members’ Collection Series: Construction Management, and Computers & Digitization”. It will be a collection of papers from researchers invited by the Editorial Board Members. The aim is to provide a venue for networking and communication between *Buildings* and scholars in the field of construction management, and computers & digitization. All papers will be published with full open access after peer review.

Guest Editors

Prof. Dr. Osama Abudayyeh

Dr. Eric Jing Du

Dr. Esther Obonyo

About the Journal

Message from the Editor-in-Chief

Current urban environments are home to multi-modal transit systems, extensive energy grids, a building stock, and integrated services. Sprawling neighborhoods are composed of buildings that accommodate living and working quarters. However, it is expected that the cities and communities of the future will face complex and enormous challenges, including maintenance, interconnectivity, resilience, energy efficiency, and sustainability issues, to name but a few. A smart city uses advanced technologies and a digital infrastructure to improve the outcomes in every aspect of a city's operations. A smart building optimizes the experience of occupants, staff, and management by using a modern and connected environment. Innovations in technology that can bring dramatic improvements to design, planning, and policy are critical in developing the cities and buildings of the future.

Editor-in-Chief

Prof. Dr. David Arditi

Construction Engineering and Management Program, Department of Civil, Architectural, and Environmental Engineering, Illinois Institute of Technology, 3201 South Dearborn Street, Chicago, IL 60616, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Civil) / CiteScore - Q1 (Architecture)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2024).
