Endometrial Cancer—Diagnosis and Treatment

Message from the Guest Editors

Endometrial cancer is the most common gynecologic malignancy, with an increasing incidence, particularly in postmenopausal women. Advances in this disease's diagnostic and surgical management are crucial to improving outcomes while minimizing the impact on patients' quality of life. This Special Issue on “Endometrial Cancer—Diagnosis and Treatment” focuses on the gynecological aspects of managing the disease, particularly early-stage diagnosis and innovative surgical techniques. Contributions related to the latest diagnostic tools, including advanced imaging, molecular markers, and minimally invasive surgical techniques, are encouraged. This issue aims to provide a comprehensive, gynecologically focused approach to the management of endometrial cancer, with an emphasis on early detection and personalized care.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
