

Special Issue

Novel Biomarkers in Pancreatic Cancer

Message from the Guest Editors

The aim of this Special Issue is to collect the most relevant and recent findings in the field of the identification and development of novel biomarkers for pancreatic cancer. Furthermore, attention will be paid to contributions that highlight the potential role that novel biomarkers may have in guiding therapeutic decisions in the treatment of pancreatic cancer. Research articles reflecting the fields of “in vitro” diagnostics and prognostics are welcome, as well as clinically applicable high-throughput diagnostic technologies that can provide oncologists with innovative companion diagnostics.

Guest Editors

Dr. Damiano Caputo

Dr. Daniela Pozzi

Dr. Alessandro Coppola

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
