

Special Issue

Disparities in Cancer Prevention, Screening, Diagnosis and Management

Message from the Guest Editor

In this Special Issue of *Cancers*, we aim to highlight recent research into disparities in cancer prevention, screening, diagnosis, and management. We plan to highlight novel research into racial, ethnic, sexual orientation, and gender minorities. Additionally, we plan to highlight novel research into those impacted by the structural and social determinants of health. We are especially interested in solutions-based research which aims to overcome the challenges in the way of achieving equitable cancer care, studies evaluating the financial toxicity of cancer care, and those including patient-reported outcomes. We welcome submissions of clinical trials, interventional studies, observational studies, methodological research, reviews, and perspectives.

Guest Editor

Dr. Eliza W. Beal

Departments of Surgery and Oncology, Barbara Ann Karmanos Cancer Institute, Wayne State University School of Medicine, Detroit, MI 48201, USA

Deadline for manuscript submissions

31 December 2024

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
