

Special Issue

Molecular Immunotherapy of Solid Tumors

Message from the Guest Editor

Cancer immunotherapy is transforming multidisciplinary cancer care and opening new therapeutic avenues. The current types of immunotherapies that have been explored include monoclonal antibodies (mAb), immune-checkpoint inhibitors (ICIs), oncolytic viral platforms (OV), cancer vaccines, adoptive cell therapy (ACT), and various combinatorial approaches. The purpose of this Special Issue is to define the role of molecular immunotherapies in solid tumors, including (1) mAb in cancer treatment; (2) the contribution of ICIs in the progress of cancer therapies; (3) cancer vaccines in solid tumors; (4) predictive biomarkers for checkpoint-inhibitor-based immunotherapy; (5) drug resistance and immunotherapies; and (6) the combination of immunotherapies with conventional cancer treatments. This Special Issue welcomes both original research articles and reviews.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
