

Special Issue

The Design of Protein-Based Catalysts

Message from the Guest Editor

The present Special Issue aims to combine a group of articles devoted to the use of protein-based catalysts. Biocatalysis is unquestionably one of the major pillars of sustainable and green chemistry. Protein-based catalysts have numerous applications outside of biological systems. They are widely used in industry, medicine, and biotechnology. Additionally, scientists are actively researching and engineering new enzymes with enhanced catalytic properties for specific applications. Articles devoted to all applications of proteins-based catalysts in the most distinguished fields in the form of original research papers, review articles, and short communications are welcome.

Guest Editor

Dr. Jennifer Noro

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn
Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec,
CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General
Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 12.9 days after
submission; acceptance to publication is undertaken in 2.8
days (median values for papers published in this journal in
the first half of 2024).
